

Great work to everyone involved for securing a spot for Macarthur South West Sydney

in the A-League Comeptition

“Macarthur South West is a region with a rich football history that when blended with a fast-growing demography creates an exciting future for the game. A ready- made rectangular stadium will also deliver an enjoyable match day experience for fans,” Gallop said.

“One of the key factors in our decision was the long-term growth opportunity for Macarthur South West Sydney. Macarthur South-West Sydney represents one of the biggest growth corridors in Australia.”

FFA chief executive David Gallop said their ready-made broadcast-suitable home venue at Campbelltown Stadium was key in landing a licence.
